EXPERIENCE

Senior Software Engineer

08/2023 - Present

The League

- Managing rapid release cycles and high-pressure workflows on the iOS application
- Building features with the highest business impact and user delight through rigorous experimentation, bold strategies, and relentless bug fixes
- Rebuilt the onboarding flow, ship backend features, and initiated AI features for the product

Founder

10/2024 - Present

Skipper AI

- Shipped a Slack-to-Jira AI agent that saves technical teams time and context-switches
- Skipper instantly converts Slack conversations into Jira tickets that are populated, assigned, and ready to use
- Marketed Skipper through LinkedIn & Reddit to get paying customers that use Skipper every day
- Rapidly iterated through customer outreach, product feedback, & marketing angles to repeatedly launch Skipper

Founder, CTO

12/2020 - 08/2023

Cling

- Founded a training community platform for rock climbers, successfully fundraised, and scaled to a small team of people
- Product responsibilities ranged from product management, design, to engineering
- Business responsibilities ranged from strategy, planning, fundraising, sales, and marketing
- Built the iOS app, a Ruby-on-Rails API, a website, and a low-code B2B client portal
- Managed a team of contractors for Android

Senior Software Engineer

01/2020 - 02/2022

Apartment List

- Architected critical business flows on iOS to increase user insights and elevate user experience
- Increased client-side code quality and reduced tech debt across the platform
- Coordinated engineering team roundtable meetings to foster knowledge sharing across the team

Software Engineer

04/2018 - 01/2020

Apartment List

- Worked on iOS and Android applications with a focus on improving success for renters finding a home
- Used MVI architecture & reactive patterns to rapidly ship experimental features while maintaining code quality
- Learned Ruby on Rails to develop end-to-end user experiences from the backend to the client

IOS Engineer

01/2017 - 03/2018

Say Ilc

- Lead engineer for the iOS application in a team of four
- Numerous responsibilities focused on improving user experience for the social platform

Senior Regulatory Reporting Analyst

06/2014 - 07/2016

Axiom Software Laboratories

Edge Analytics Intern

05/2013 - 08/2013

IBM Research

EDUCATION

Bachelor of Science, Computer Science

2014

[New Jersey Institute of Technology](#)

Master of Science, Business & Info. Systems

2017

[New Jersey Institute of Technology](#)
